

# Middle Fork Public Hearing

Riverbank Stabilization / Water Quality Certification

**Tuesday, March 26, 2019 • 6pm**

Danville Area Community College Gymnasium  
2000 East Main Street • Danville, Illinois

## WHAT IS THIS HEARING ABOUT?

Dynegy Midwest Generation has applied for Section 401 Water Quality Certification for impacts associated with a riverbank stabilization project. This includes placing over 22,000 cubic yards of rip-rap and other fill along 2,000 linear feet of the right descending bank of the Middle Fork.

This massive project will harm the river. Approval by the Illinois EPA will set the stage for Dynegy to be able to cap its toxic waste and permanently leave it in the floodplain of Illinois' only National Scenic River.

## We Need You to Attend and Testify!

Eco-Justice Collaborative and Prairie Rivers Network have scheduled three opportunities to help you prepare oral and written comments. Plan to attend one of these briefings, and bring along a friend or two.

## ATTEND A BRIEFING!

**Thursday, March 14, 2019**

6:30pm to 7:30pm  
Danville Public Library  
319 N Vermilion St, Danville

**Tuesday, March 19, 2019**

6:30pm to 7:30pm  
Webinar  
See: [prairierivers.org/hearing](http://prairierivers.org/hearing)

**Wednesday, March 20, 2019**

6:30pm to 7:30pm  
Urbana Free Library  
210 W Green St, Urbana
